Subject: Copyright Permission for Inclusion in Thesis

Hello,

I have published a journal article with you (in Behavioural Brain Research) earlier this year and am hoping to include it as

https://webexchange.uleth.ca/owa/?ae=Item&t=IPM.Note&id=RgAAAA...4LhjRZ4m3SbAACmcj9AAAj&a=Print&pspid=_1429845224436_600210796
a chapter in my master's thesis. As I have read on your website, given that I am the author of the published journal article and that I will be using the article for 'personal use,' I would like to confirm that I am able to include this as part of my thesis without filling the permission request form?

Thank you,
Sarah Raza
