Notes: Diet is per animal
*Pellet consumption tends to fluctuate, refer to whiteboard in cedar barn kitchen for current amounts.
Pellets are offered in the am as a shifting incentive. Any pellets used for alpaca BTS should come out of daily rations.
One Alpaca (Pekoe) has a history of choking episodes, therefore always ensure pellets are moistened.

**When transitioning to a new mixed hay, always do this slowly over 12 - 14 days.

FEED AS INDICATED. DO NOT ALTER DIET. IF CHANGE IS REQUIRED PROVIDE DETAILS IN DIET CHANGE REQUEST.
