Notes: Diet is per animal.

*Summer herbivore pellet April to Oct. Transition over 12 days 25:75 (4 days), 50:50 (4 days), 75:25 (4 days), 100%

*Winter herbivore pellet Nov to Mar. Transition over 12 days 25:75 (4 days), 50:50 (4 days), 75:25 (4 days), 100%

Consult animal nutrition supervisor for current mixed hay components and recommended amounts.

Recommended, 25% Alfalfa, 16-18%CP, 90% DMB

Pasture available in summer, hay may be reduced based on appetite and body condition

**Adjust amount of herbivore pellets based on number of animals and stage of gestation (2x in 3rd trimester) or lactation (3x). Offer Foal Lac to goat kids.

Difficult to enrich with food, as they are very picky. Scent enrichment is recommended.

FEED AS INDICATED. DO NOT ALTER DIET. IF CHANGE IS REQUIRED PROVIDE DETAILS IN DIET CHANGE REQUEST.
